

Existing Pattern Examples

Example: Objectives

1. Get acquainted with each other
2. Become familiar with the syllabus

Mark important dates

Understand the assignments

3. Be ready to share one conclusion and the evidence behind it.

Example: Prompt and Outcome Callout

Prompt

Using the study scenario, identify the exposure, outcome, and comparison you would need to estimate an association.

Expected outcome

Be ready to name:

A plausible exposure

A plausible outcome

The comparison group

One question your group would need to resolve

Example: Two-Panel Comparison

Concept A

Describe the first concept, approach, or option.

Add a short implication, strength, or limitation.

Concept B

Describe the second concept, approach, or option.

Add a short implication, strength, or limitation.

Example: Image-Supported Profile or Explanation

Use this space for a concise profile, case description, or explanation. Keep the text focused on the information learners need to understand before or while viewing the image.

Example: Full Screen Image with Hidden Title
